

Dear Students;

In the internship courses opened in the Department of Architecture, students are required to choose one of three different methods described below. They can register for the options by applying to the Faculty of Architecture Internship Board with a written petition. In this way they will complete their internship:

- ARCH 200 Summer Practice 1 (Site) ARCH 300 Summer Practice 2 (Office) and MIM 200 Internship 1 (Construction Site Internship) courses will be defined between 4-31 August 2020 in the distance education system (LMS). Students who request this option can complete their internship by registering for these courses.)
- (Students who request this option will do their internship between August 4-31, 2020. They will make their applications to the Faculty of Architecture Internship Board. The application date will be announced by the board in the coming days. Internship application documents will be delivered to the Faculty of Architecture Internship Board and then the internship commission will approve the appropriate applications. Thus, students will complete their internships at the office or construction site of their choice.)
- (Students who cannot complete their internship this summer due to Coronavirus Disease (COVID-19) can choose this option. Students will request to complete their internship in the interim period at the end of the 2020-2021 Fall semester. So they will complete their internship in the fall semester break.)

Sincerely yours.
