- Student mobility for studies is carried out within the framework of existing inter-institutional agreements of ECHE and the Higher Education Institution.
- Bilateral agreement of departments is not obligatory if students want to benefit from the Erasmus +Traineeship Mobility programme. Students can apply and take the language exam by selecting the traineeship option only.

- Internship activity can be carried out in every grade during the education period and within 12 months after the students in the final year of their education programs graduate. The application for the internship activity to be carried out after graduation must be made before the student graduates (while he/she is

currently an associate, undergraduate or graduate student). Graduated students cannot apply. Post-graduation internship mobility must be completed within 12 months from the date of graduation. The total of the internship period after graduation and the student's mobility period at the same level should not exceed 12 months.

- Academic recognition is provided for credits achieved in the program; Failed courses need to be taken at Alanya University.

It is at the discretion of the higher education institution whether a student who suspends registration for optional internships can benefit from mobility. Applications for study or internship mobility can be made during the registration freeze period.
- If students return before the minimum period is completed, except for force majeure, the activity will be deemed invalid and the grant will not be paid.
